CAREER AND INTERNSHIP OPPORTUNITIES

Become part of our **AccuWeather** family, an exciting place where innovative meteorologists always have a voice.

Apply now at **[AccuWeather.com/Careers](https://www.AccuWeather.com/Careers)**. If you have questions, please email **AccuForecast.Hiring@AccuWeather.com** or call 814.235.8598.

Internship Opportunities

Paid interns work side-by-side with AccuWeather team members with a variety of opportunities available each semester in areas including forecasting, information technology, journalism, graphic design, marketing, and more.

Hands-On Forecasting Experience

Forecasting interns gain invaluable knowledge and hands-on experience by assisting our meteorologists in finalizing newspaper and radio forecasts, updating the AccuWeather forecasting database, drawing weather graphics, monitoring internal warning software to create customized hazardous weather warnings, and other exciting opportunities.

Availability

Paid forecasting internships are available from May to August at our Global Headquarters in State College, Pennsylvania, and at our Severe Weather Center in Wichita, Kansas. Internships are approximately 40 hours per week.

Openings

Visit [AccuWeather.com/Careers](https://www.AccuWeather.com/Careers) for a complete list of internships. Since forecasting internships are highly competitive, meteorology students are encouraged to apply for all positions that interest you.

Who Should Apply

Ideal candidates for the forecasting internships are undergraduate students who plan to graduate from Fall 2022 through Spring 2023.

When to Apply

Students seeking a forecasting internship must submit an application by Feb. 8, 2022. Interviews will be conducted February 15-16, 2022.
